

**No Neighbor
Hungry,**

**No Food
Wasted**

**Cultivate
Food Rescue**

**40% of the U.S.
food supply is
wasted**

The environmental impact is devastating. The majority of this food is still fresh and delicious. Cultivate takes a logical approach to sustainability- rescue it! With the help of volunteers and chefs, Cultivate takes the food that would otherwise go to waste and redistributes it to those who need it.

**Your sponsorship of
Cultivate saves our planet.**

**68 hours is how
long a child may go
without food on
the weekend**

Cultivate's flagship program takes rescued food and turns it into nutritious frozen meals. Those meals are then delivered to schools and sent home with children to fill that 68 hour gap. They return to school on Monday ready to focus on learning!

Cultivate builds better
futures for our children.**

**13% of our
neighbors face
food insecurity**

Cultivate Cares Food Network is our newest and fastest growing redistribution program. CCFN takes rescued food and redistributes it to pantries, soup kitchens, and other organizations that provide help to those who are food insecure. This food and support allow these organizations to run more efficiently and help more people.
